

The Pallet

Business Disconnect

How Does Warehouse Renewal™ Connect Everything?

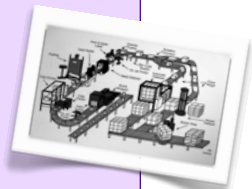

OK ... take part donut stand, part Japanese restaurant, and throw in a little bit of a burger joint for good measure. What do you get? Not quite sure. Perhaps a place where you can have breakfast (donuts), lunch (burgers), and dinner (teriyaki

chicken) without having to go anywhere else. **Pallet Consultants** offers something more cohesive: *Warehouse Renewal*. Our team will see to it that your warehouse processes, pallet program, and packaging services all fit together seamlessly.

Do all the parts fit ...
and so *what* if
they don't?

The different parts of a business or operation will always affect each other — whether or not these parts fit well. None of us runs a perfect operation. However, a bad fit between people, processes, or equipment can dishearten employees and reduce profitability and productivity.

For example, what happens if one person does not fully get on board with new ideas, plans, and processes? All potentially suffer. Now, we do not promote *uniformity* — an actual impossibility if you think about it. Rather, when the *different* parts fit and work well together, great accomplishments ensue. *Warehouse Renewal™* from Pallet Consultants aims to help you do just that.

PALLET CONSULTANTS OFFERS A FREE —NO COST—EVALUATION TO LOCAL BUSINESSES

Pallet Consultants' signature free — no obligation — assessment of your warehouse or distribution center can help you weather difficult economic times. If you tell us what products you ship, on what, to where we will find or build a cost effective pallet for your application. We evaluate your total warehouse program

to identify both inefficiency and areas of improvement and savings. Our *Warehouse Renewal™* team does a walk-through of your facility to make sure you have the appropriate pallets, warehouse equipment, and packaging supplies at the right cost. Typically, **Pallet Consultants** saves businesses thousands of dollars a year. Schedule your free visit by calling 1 (888) 782-2090 or (954) 946-2212.
