## Gift Giving Guide 2009

*Give whatever you want to give ... sort of*

Several stores and publications offer Christmas gift giving guides. So, we're offering some giving advice of our own. First, give whatever you want to give to whomever you wish. Secondly, ask yourself, "Will they like it?" If you buy something just to get it out of the way ... then neither you nor

your recipient might find it too pleasing. A little thoughtfulness usually wins over a lot of price — unless you're shopping for a diva or a snob. Third, look carefully at the price tag. If you can afford it, great! If you can't, start over. Or, ask the sales clerk, "Are you sure that's the lowest possible price on this?"
