

PC Pallet Consultants

Seasoned expertise, timely delivery, peace of mind

PALLET CONSULTANTS

Years of experience result in the precise pallet and pallet program for your particular industry.

YOUR PARTNER AND ADVISOR

EXPERTISE, SERVICE, AND
PEACE OF MIND

Let our years of supply chain
expertise help you.

Pallet Consultants excels in the timely delivery of quality pallets through fine-tuned manufacturing and transportation operations. We serve grocery warehouses, produce packers, citrus growers, fertilizer and mulching facilities, and other industries.

Our associates and independent sales personnel aim to give you the best customer service in the industry. Customers can testify to how **Pallet Consultants** has come through for them beyond customary expectations.

Pallet Consultants extensive experience with different industries helps us offer the precise pallet for each application. The right pallet can prevent or reduce product damage, alleviate safety concerns, and lessen the chance of costly supply chain interruptions.

As an additional safeguard, we have excellent insurance for both our products and trucking services. This protects your company from the liability associated with underinsured vendors.

Pallet Consultants also favors environmentally friendly practices. Our recycling and repairing of pallets diminishes use of new wood and landfills. Combo pallets combine recycled and new wood to help clients save money and to reuse still useful material. Instead of potentially harmful chemical use, we heat treat pallets to meet ISPM 15 standards. Finally, we convert unusable wood into mulch or boiler fuel.

It starts with an evaluation ...

PALLET CONSULTANTS

WE FIRST BRING OUR EXPERTISE TO YOUR BUSINESS —FOR FREE

Pallet Consultants offers a free —no obligation— assessment of your pallets and pallet program. This evaluation helps determine the appropriate, most cost effective pallet for each particular business or application. -  PRODUCTS/SERVICES
-  BENEFITS

that results in satisfaction ...

and other benefits

PALLET KNOWLEDGE

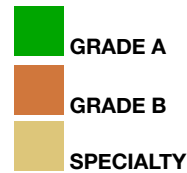

ALL GRADES/SPECIFICATIONS

During **Pallet Consultants'** free evaluation visits we sometimes discover that a company needs a different type or size of pallet than the ones they currently use.

Other times we uncover that a vendor has delivered lower quality pallets at a higher grade price. **Pallet Consultants'** expert knowledge helps to clear up these pallet issues and provide a fitting solution.

Pallet Consultants also relies on its years of experience to design and construct specialty pallets in the most cost sensitive way for businesses that need something other than a GMA style pallet.

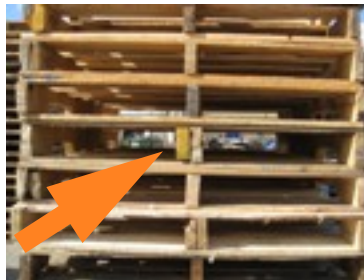

If **Pallet Consultants** discovers that your business already runs an effective pallet program, we still look for ways to render your current service even better—at no cost to you.

GRADE A PALLETS

Grade A pallets include GMA (and GMA type) pallets from hardwood to pine with no block or half runner stringer repairs. 00 pallets have 6" lead boards top and bottom. 02, 03 and 05 pallets may combine 6" and 4" lead boards. 03 pallets may have plate and/or corrugate repairs.

Stock# 00, 02, 03, 05

GRADE B PALLETS

These pallets will have block or half runner repairs on one (07), two (08) or three (09) of the stringers.

Stock# 07, 08, 09

SPECIALTY CUSTOM PALLETS

Pallet Consultants will build your custom pallets to specification in the most efficient cost effective manner for you.

Stock# Custom/Specialty/Combo

PALLET SERVICES

OUR PROGRAMS OPTIMIZE YOUR EFFORTS

Years of experience render Pallet Consultants the ideal partner and advisor for your pallet program. With the best insurance in the industry, a large fleet of trucks, and a conscientious desire to see your company prosper, Pallet Consultants frees you to fully focus on your own business.

- PALLET BUYBACK PROGRAM**
- PALLET BANKING**
- PICK UP AND REPAIR**
- ON SITE REPAIR**
- MULCHING SERVICES**
- BOILER FUEL**

PALLET BUY BACK PROGRAM

Pallet Consultants will buy your excess pallets. Instead of your business having to pay for their removal, we turn this necessity into a source of income for you.

PALLET BANKING

This service assures your business a fresh supply of pallets which you may withdraw from any of our facilities.

PICK UP/SORT AND REPAIR PROGRAM

This pallet program provides several benefits. In addition to timely pickup and repair, we provide a monthly record of what kind and how many pallets you use.

ON SITE REPAIR PROGRAM

This program assures that you always have available pallets at your door. A pallet repair station on your premises increases accountability, facilitates sorting and record keeping, and eliminates trucking costs.

MULCHING SERVICES

Our Atlanta facility sells very high quality and extremely durable colored mulch. The colorants come from an ISO-9001 registered company, and have been independently tested as safe for people, pets, and the environment.

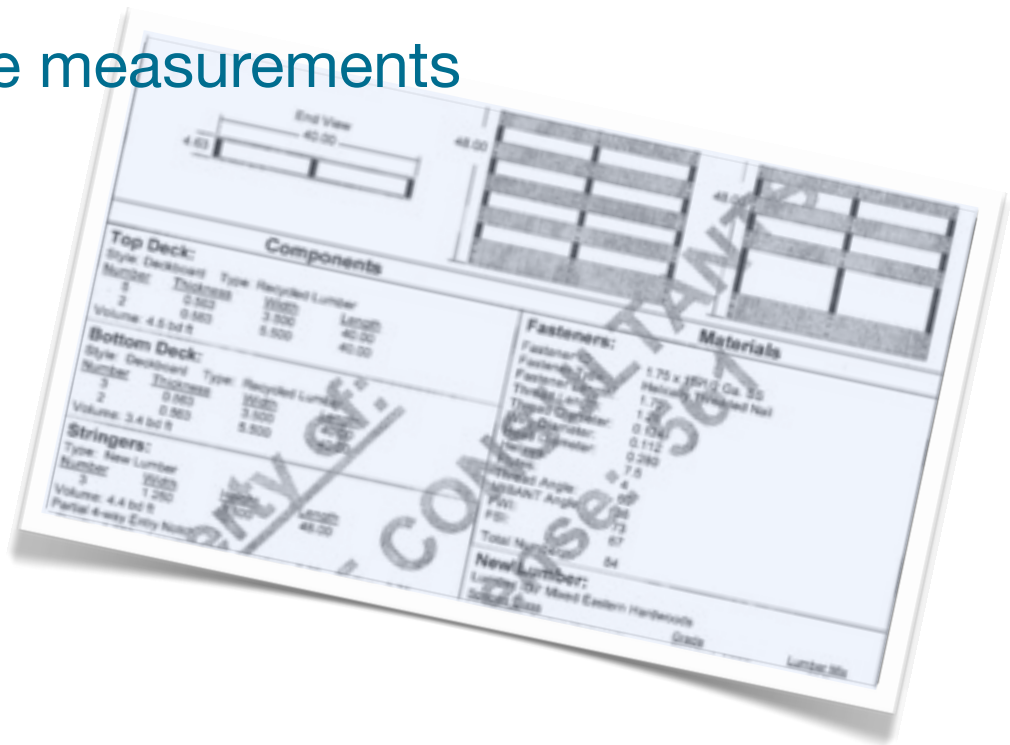

BOILER FUEL

All Pallet Consultants facilities produce clean, low moisture content boiler fuel. Boiler fuel boasts an exceptionally high BTU content and facilitates the efficient use of forest resources and wood by products.

SOMETIMES EFFICIENCY DEMANDS A SPECIALLY DESIGNED PALLET

Pallet Consultants offers precision pallets for clients who need specifications beyond the customary pallet. The Pallet Design System (PDS) allows clients to address liability issues by producing pallets precisely manufactured for their product. We listen, make measurements, determine load capacity, and discern the material handling environment. Then we produce the right pallet for your application.

1. Listen and take measurements

2. Determine load capacity and material handling environment

3. Produce the precise pallet

"I have been a loyal **Pallet Consultants** customer since 2000. I've compared programs and services from other pallet companies over the last eight years, and have not found any that are truly competitive.

The quality and service provided to my company are head and shoulders above others. My company is very demanding with regards to a quality pallet product. **Pallet Consultants** has gone above and beyond to supply this."

—Nationally known drugstore chain client

"Service is great, on time delivery and quick response to e-mail communications."

— International product and service corporation

"Over the past several years **Pallet Consultants** has provided me and my company with high quality products and service that is no less than excellent. I would recommend them to any company in the market for pallet services.

Superior quality and service!"

—Renowned distilling and bottling company

"I have seen savings on my cost for pallets, and time, by having empty trailers on site at all times. The pallet retrieval and pay program has enabled my company to devote money towards the purchase of heat treated pallets."

— North American foodservice distributor

"The pallet retrieval and pay program helped my company to devote funds toward the bottom line as revenue for the company, and lowered the waste removal cost."

—Famous dinnerware company
